

I listen to K-Love radio on a daily basis, as do many of my friends and colleagues. It serves as an integral part of our community, broadcasting positive messages continuously throughout the day. This broadcast serves a great public need by counter-acting media filled with violence and sex, and provides our youth a station that is fun to listen to and filled with wholesome content. Please keep K-Love on the FM radio, and do not replace it with an LPFM! Thank you.
